Sir:

It is hereby requested under 37 C.F.R. § 3.81(b) that the above-captioned United States Patent be corrected to state the name of co-assignee Novartis Pharma AG, which would be in addition to the name of co-assignee Cytos Biotechnology AG (whose name is included in the Assignee information shown on the face page of the issued patent). The assignment to Novartis Pharma AG was recorded in the Assignment records of the USPTO on January 23, 2004, beginning at Reel No. 014280, Frame No. 0677; a copy of the Notice of Recordation reflecting the recordation of this Assignment is appended hereto.

Thus, the application that resulted in the issuance of the captioned patent was assigned to both Cytos Biotechnology AG and Novartis Pharma AG during the pendency of the application. Patentees note, however, that the Form PTOL-85B that was submitted with payment of the Issue Fee in the captioned matter on April 25, 2007, listed only Cytos Biotechnology AG as the assignee and erroneously did not list Novartis
